**Names appearing in HEAVY BLACK LETTERS in this Directory are those people who ACCOMPLISH THINGS.**

They represent the ENERGY and PUSH so essential to commercial prosperity.

---

## *Of Course* **Advertising Costs Money**

One of the stock alibis of persons who do not advertise or register their business strongly in the Directory is that advertising is an expense.

Of course it is. So is window trimming, lighting, heating, telephone service, postage, rent, cost accounting, price tags and almost everything else that helps to sell merchandise or service.

Yet no business man attempts to get along without these necessities. And most of them are advertising in one form or another.

Attractive windows are effective advertising only to those who pass the merchant's place of business. An inviting interior, good lighting arrangement and price tags reach only those who come through the door.

But no merchant who wants to maintain even his present volume of business, to say nothing of increasing it, can hope to continue for very long, in the face of advertised competition, without some aggressive program to attract NEW customers—and when getting them also serving them with a directory handy for use.

Of course it costs money to advertise. But it may easily cost more money to lose that volume of business which is necessary to operate at a profit.

An intelligently planned and executed advertising campaign in the Directory is within the reach of every merchant, professional man and institution. The Directory is used thousands of times annually, and costs less than one hundredth of a cent per user—the least expensive publicity ever devised.

# Warwick Chamber of Commerce

INCORPORATED IN 1922

**To promote the Commercial, Agricultural, Industrial and Civic Interests of the City of Warwick**

WARWICK has changed from an old town to a young, progressive city, 40 square miles in area, fringing along the shores of Narragansett Bay on the East and South, and along the banks of the Pawtuxet River on the North and West. It is located on the N. Y., N. H. & H. Railroad, 10 miles south of Providence, 55 miles from Boston, 50 miles from New London and 165 from New York. It is within easy trucking distance of all Providence terminal and harbor facilities.

Its population of over 27,000 jumps to 45,000 during the Summer when Warwick becomes the vacation land of Rhode Island with its summer resorts, amusement parks, its bathing beaches with its Rocky Point where shore dinners may be served to 4000 guests at one sitting.

In the western section of the city world famous industries have flourished. Beside textile finishing plants and bleacheries, Warwick has establishments producing fine worsted suitings, silk cloth, rayon, stapling machines, wire stitchers, paper fasteners, brass casting, brass mouldings, pipe fittings, cement blocks and well curbs, lally-columns, feather boards, boats, pencils, soaps, starch, soda drinks, ales and beer, mushrooms.

The shell fish industry is important. Market gardens, the dairy and poultry business prosper.

Warwick is primarily a residential city of over 10,000 single homes. In order to preserve its fine residential character while giving gainful employment to an intellectual class of labor, the Chamber of Commerce is encouraging light industries to locate in Warwick in preference to the heavy ones.

The State Airport is situated at the geographical center of the city. There are 1398 highways within the city limits. The principal ones have four lanes. The transportation facilities are very good. The typical destinations of freight shipping are: 1st morning: New York, Philadelphia, Baltimore, Boston; 2d morning: Pittsburg, Portland, Albany, Buffalo; 3d morning: Chicago, Cleveland, Detroit, Atlanta.

The total assessed valuation exceeds \$43,000,000.00. The tax rate was \$24.00 in 1930; today it is \$22.00 per M. The total U. S. income returns have about doubled since 1930. 90% of the families live in single dwellings. The percentage of home owners to total families is in excess of 66.4 compared to 40.8 for the State.

Warwick is the fastest growing community in New England. Commercial engineers have estimated that the population of Warwick in 1960 will exceed 47,000 people or 13,000 families.

The wisdom of an investment in Warwick is founded on two facts: the home will be in healthful and peaceful surroundings, the business enterprise will develop with a rapid growing community.

Is nowhere greater than in business. Know where your customers are located. Know who else is in the same line, and try to make them customers.

## **The Sign Over Your Door**

It is a good thing, isn't it? You would not think of doing business without it.

**BUT IT IS ONLY SEEN BY THOSE WHO PASS YOUR WAY.**

If you could put a sign where everyone could see it, would it interest you?

## **THE CITY DIRECTORY**

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants in the **CITY DIRECTORY**, properly indexed under all classifications where he might look for you.

To be properly registered costs less than to be left out.
